Re: Application for non-standard
location, Northeast Blanco
Unit No. 37A

Dear Mr. Ramey:

As operator of the Northeast Blanco Unit, we are requesting administrative approval of a non-standard well location to be completed in the Mesaverde Formation.

We intend to drill the Northeast Blanco Unit Well No. 37A, an infill well, located 790' F/SL - 570' F/EL, P-6-30N-7W, San Juan County, New Mexico.

The surface is owned by the United States Bureau of Reclamation; the royalty is fee owned. Due to extreme topographical conditions and proximity to the Navajo Lake, we believe we have surveyed this well site in the most logical location.

All offset properties, are within the bounds of the Northeast Blanco Unit and will present no drainage problem to any offset operator.

Very truly yours,

BLACKWOOD & NICHOLS CO., LTD.
