Re: Rules Violations at Mae Gail Com #1E, M-29-29N-11W

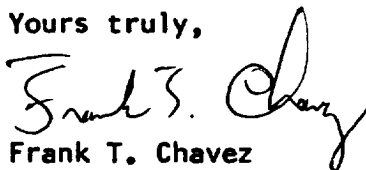

Dear Harold:

On a recent field inspection personnel from this office discovered that you had suffered a downhole blowout on the referenced well. Reports indicate that the well unloaded the drilling fluid the evening of December 31, 1980, and gas began erupting from the ground the next morning at approximately 7:00 AM. This blowout was never reported to this office in violation of Rule 116. The matter has been referred to our counsel for appropriate legal action.

You are hereby directed to supply this office with all the data relevant to the incident. This information should include dates and times of all gas kicks and the remedial actions taken.

If you have any questions please contact this office.

Yours truly,

  
Frank T. Chavez  
District Supervisor
