Re: Application for non-standard
location, Northeast Blanco
Unit No. 34A

Dear Mr. Ramey:

As operator of the Northeast Blanco Unit, we are requesting administrative approval of a non-standard well location to be completed in the Mesaverde Formation.

We intend to drill the Northeast Blanco Unit Well No. 34A, an infill well, located 1580' F/SL - 1290' F/WL, K-18-30-7W, San Juan County, New Mexico.

Due to extreme topographical conditions and proximity to the Navajo Dam, we believe we have surveyed this well site in the most logical location.

All offset properties, are within the bounds of the Northeast Blanco Unit except Section 30, T30N, R7W, Rio Arriba County, New Mexico, which is operated by El Paso Natural Gas Company, P. O. Box 990, Farmington, New Mexico, who was notified by registered mail on February 6, 1980, of our request for administrative approval of the above non-standard well location.

The proration unit dedicated to Well No. 34A was approved by Case No. 1009; Order No. R-753 containing 307.44 acres.

Very truly yours,

BLACKWOOD & NICHOLS CO., LTD.
