d. Land Status: BLM-FD										
14. a. Description of Undertaking: Inventory of well tie pipeline ROW and cultural buffer zone plus additional TUA for wash crossing. Project begins at existing pipeline and continues south and then turns west for a total of 1002.89 feet to end at metering station.										
b. Existing Data Review: BLM records search June 30, 1995, NMARMS June 26, 1995. There are eight previously recorded sites within one mile of the project, no sites are within 500' of the project area.										
c. Area Environmental/Cultural Setting: The proposed pipeline is located in a canyon floor south of the San Juan River in an area of intermittent drainages. Ground cover is 10-70%, consisting of sparse juniper, sage, cheat grass, antelope brush and rabbit brush. Elevation is 5660'.										
d. Field Methods: Parallel pedestrian transects were spaced 8-10 meters apart to cover the 40' ROW plus a 50' cultural buffer zone to each side. An additional 50' x 200' TUA was inventoried for the wash crossing.										
e. Artifacts Collected?: no										
15. Cultural Resource Findings: No cultural resources were identified during this inventory.										
a. Location/Identification of Each Resource:										
b. Evaluation of Significance of Each Resource (above):										
16. Management Summary (Recommendations): Cultural resource clearance is recommended for this project.
