Application for Exception to Rule 303-C - Downhole Commingling
Sullivan Frame A #1E Well
Unit A Section 30-T29N-R10W
Otero Chacra, Blanco Mesaverde, and Basin Dakota Pools
San Juan County, New Mexico

Enclosed please find an administrative application form (C-107-A) and attachments for downhole commingling for the captioned well. By copy of this application by certified mail, return receipt requested, Amoco is notifying all offset operators in the formations captioned above as well as all affected interest owners if the ownership of those formations is not common. The Division Director may approve the proposed downhole commingling in the absence of a valid objection from any offset operator or any interest owner in those instances where ownership is not common in the zones to be commingled within 20 days after the receipt of the application if, in his opinion, waste will not result thereby, and correlative rights will not be violated.

Should there be questions concerning this matter, please contact me at (303) 830-5344.

Sincerely,

Pamela W. Staley

ALLOCATION METHOD

This well has a marginal Dakota side which is in need of a workover. We plan to test the Dakota after that workover and propose allocations based on that work. The Chacra and Mesaverde are already downhole commingled and allocated as follows:

	OIL	GAS
Mesaverde	50%	50%
Chacra	50%	50%
