Gentlemen:

I have examined the application dated July 31, 1980
for the Tenneco Oil Co. Valdez Gas Unit AIE G-24-29N-11W
Operator Lease and Well No. Unit, S-T-R

and my recommendations are as follows:

Dick, I have been in touch with both Tenneco and Getty Oil and told them I would recommend that the well be moved approx 300' to the east and would docket it for hearing. Tenneco ~~and~~ wants to mistake the location without a hearing as well as Getty. If Tenneco cannot reach an agreement with the land owner we can docket a hearing at that time.

Yours very truly,

APPROVED By Dick

RE: Application for Unorthodox Location
Tenneco Valdez Gas Unit A1E
Proposed Dakota/Mesaverde/Chacra Well
San Juan County, New Mexico

Gentlemen:

Attached in duplicate (to each office) are a well location plat C-102 with a sketch of the surrounding conditions and an ownership plat for the above-captioned Dakota/Mesaverde/Chacra gas well.

The Valdez Gas Unit A1E proposed site is 2390' FNL, 2560' FEL, Section 24, T29N-R11W, San Juan County, New Mexico. This places the well only 80' from the boundary lines of the quarter section. This was the only feasible site due to the irrigated fields as sketched on the C-102.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

Pursuant to authority of Rule 104-F, we respectfully request your approval of an exemption to the standard well location requirements.

Very truly yours,

TENNECO OIL COMPANY
