Re: Application for non-standard  
location, Northeast Blanco  
Unit No. 31A

Dear Mr. Ramey:

As operator of the Northeast Blanco Unit, we are requesting administrative approval of a non-standard well location to be completed in the Mesaverde Formation.

We intend to drill the Northeast Blanco Unit Well No. 31A, an infill well, located 1770' F/NL - 10' F/WL, E-7-30N-8W, San Juan County, New Mexico.

This location is under the surface control of the New Mexico Park and Recreation Commission, United States Bureau of Land Management and Bureau of Reclamation, who were present and witnessed the surveying of the well site. It is located adjacent to a camping and picnic area, and is the most logical location agreeable to all parties.

All offset properties, are within the bounds of the Northeast Blanco Unit and will not present a drainage problem to any offset operator.

The proration unit dedicated to Well No. 31A was approved by Case No. 1008; Order No. R-752 containing 298.90 acres.

Very truly yours,

BLACKWOOD & NICHOLS CO., LTD.
