17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The Pictured Cliffs formation in this well has been determined to be non-productive. We are now circulating a letter and amendment to the A.F.E., asking for permission to plug the Pictured Cliffs perfs and attempting a completion in the Fruitland formation. If this approval from the partners is obtained, we will then file a "Sundry Notice" to this effect. If permission is not obtained, a notice to plug and abandon will be filed.
