Re: Palmer # 16-17-29N-13W

Dear Frank;

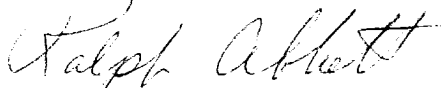

We will have the above subject well on the line by the 15th of April, 1984. This date can be completed by us but if Southern Union or Foutz & Bursum and or City of Farmington, Utility hold us up it will be out of our control.

Southern Union, Roswell office and our office are about to finalize the contract. We still have to settle who will pay for the hookup on the well.

I will get a sign and put it up. We have lost three well signs to this date, some one must be building a house.

Frank, thank you very much for your patience.

Yours Truly,

Ralph Abbott
