Dear Ms. Staley:

We have reviewed your application to commingle production downhole from the Otero Chacra and the Basin Dakota Pools in the following well located on Federal lease No. SF-080245:

**Hammer #3E m**  
**970' FSL, 870' FWL, Section 29, T-29N, R-9W**  
**San Juan County, New Mexico**

Production profiles from both formations were analyzed to determine if future allocation based on percentages would be equitable. Both formations have been declining at similar rates for the past year. Your Application and allocation method, are hereby approved as submitted, effective the date that actual commingling of the pools occurs. Approved allocation factors are:

Formation	Gas	Condensate
