M - Drilling Gallegos Canyon Unit No. 163E
SW/4 SW/4 Section 26, T29N R13W, San Juan County, New Mexico

Amoco Production Company drilled this well with a valid Permit to Drill from New Mexico Oil Conservation Division, approved in the Aztec, New Mexico office (see attachment).

According to the information you provided us, the well was drilled on Federal Minerals. The map in the Oil Conservation Division office at Aztec shows that both surface and minerals are privately owned. Maps in Amoco's office at Farmington shows that the well is located on fee surface land and fee minerals.

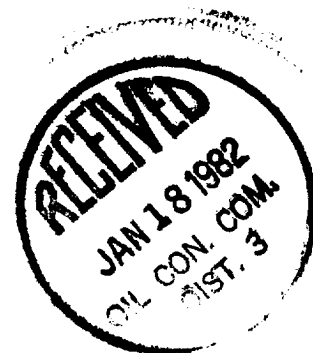

Based on the information that was available to us as operator, the well was permitted and drilled in accordance with regulations. Payment of the assessed \$25.00 is not an admission of violation of wrong doing on the part of Amoco.

We will pursue filing of the Permit to Drill with the District Office of the USGS.

Yours very truly,

JS/eb
