17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was approved to complete as a Gallup-Mesaverde dual. After drilling the well and testing the Gallup zone, we discovered that the Gallup zone would have to be pumped to recover the oil. We will not be able to do this with a packer separating the zones. We request permission to complete this well as a single Gallup.

Mesaverde zone was not opened.
