Attention: Mr. Frank Chavez

Dear Sir:

It is respectfully requested that Union Texas Petroleum be granted administrative approval to drill the Pierce "A" No. 4 well (Armenta Gallup formation) on a non-standard location due to agricultural reasons.

The proposed well would be located 1180 feet from the North line and 930 feet from the East line of Section 34, Township 29 North, Range 10 West, N.M.P.M., San Juan County, New Mexico.

The on site inspection reveals that any standard location in the unit would be situated in an agricultural area. We have spotted the well in the only location available in this drilling block.

Attached are copies of letters to the offset operators asking if they have any objections to this proposed non-standard location.
