17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Energy Reserves Group, Inc. is proposing to install a gas flowline and a water flowline from the subject well. The attached topo map shows the general location of both lines with the dashed line representing the water line and the solid line representing the gas line. Surface ownership of the lands disturbed by the installation of these lines is indicated on the topo map. All surface damage agreements and any other necessary clearances will be received prior to the actual installations.
