Re: Approval for Installation
of Below Grade Tank-Helen
Lorraine Hedrick Gale No. 2

Dear Mr. Kendrick:

We have reviewed the plans and specifications in your application for the above-referenced below grade tank. The design specifications submitted are acceptable and your application is hereby approved.

The approved application consists of the application dated January 16, 1986, and the material dated February 6, 1986, submitted as a supplement to your application. Approval of this application allows for the disposal of produced water from the Helen Lorraine Hedrick Gale No. 2 well. Please be advised that the approval of this application does not relieve you of liability should your operation result in actual pollution of surface or ground waters which may be actionable under law and/or regulations.

There will be no routine monitoring requirements other than those outlined in your application.

On behalf of the staff of the Oil Conservation Division, I wish to thank you (and your staff and/or consultants) for your cooperation during this application review.

Sincerely,

R. L. Stamets
