As illustrated on the attached C-102, Amoco Production Company would like to move the location of this well to 1770' FSL x 1810' FEL, approximately 380' northwest. Construction of the drill site at 1770' FSL x 1810' FEL was previously completed with the intention of drilling the State Gas Com BT No. 1. Amoco no longer intends to drill the State Gas Com BT No. 1 and would like to use this completed location for the subject well because a considerable cost savings would result.
