17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We desire to lay a pipeline 2187 feet in length from this well to the previously approved Reid extension to the Rudy gathering line. The proposed right-of-way (see attached plat) is all on the same lease as the well is drilled on. We desire to lay a 2", 0.154 wall, grade "B" wrapped pipe to be buried a minimum of 3 feet deep.

A topographical map of the area is attached as is a plat showing the right-of-way and a cut away drawing of the proposed pipeline.

The proposed route has been inspected by a BLM representative and an approved archaeologist. The archaeological survey is described in the report of DCA Project No. 95-83-C, Contributions to Anthropology Series, No. 714.
