We request an extension to 8-1-96 to fill in production pits as required by State Rule 202.B.3. Wellbore P&A work was completed on 3/24/94 and all equipment has been removed. By sundry notice dated 11/3/95 we have received NMOCD approval to postpone the filling in of production pits until 6/1/96. This well is in the Vulnerable Area and onsite land farming of contaminated soil is currently nearing completion. We anticipate final pit closure to occur within the next 60 days.
