If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Energy Reserves Group, Inc., is proposing to suspend a water flowline over the San Juan River. This line will be utilized to transfer water from the #331 well to the #307 water disposal well. Attached is a diagram showing the proposed suspended flowline, a topographical map of the area, and a water analysis of the produced water from the # 331 well. Note the two flood channels indicated on the topo map have been diked off by the landowner, Mr. Tom Bolack.
