- ☐ Change of Plans
☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Waste

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In response to request from Minerals Department, The Navajo Nation, Operator to submit plans for subject well as per 43 CFR 3165.3:

Operator requests permission to leave subject well shut-in for additional one (1) year period ending June 1, 1994. We are currently trying to find an investor to develop the deeper formations underlying lease as Operator believes there are substantial reserves unproduced in the same producing Horizons that the subject well is completed in. Additional testing of the subject well may be necessary to justify the drilling of additional wells to the third party. Other Sundries filed concurrently herewith pertaining to the subject lease indicate that Operator plans to plug all other wells located on this lease which have tested the deeper formations underlying the same.

Casing and cement in subject well appear sound and no contamination of the formation is anticipated.

THIS APPROVAL EXPIRES JUN 01 1994

14. I hereby certify that the foregoing is true and correct
