Dear Mr. Stamets:

This is a revised request for administrative approval for an unorthodox gas well location in the Aztec Pictured Cliffs Pool.

It is intended to locate the El Paso Natural Gas Company's Bloomfield #3 at 680' from the South line and 2200' from the East line of Section 17, T-29-N, R-11-W, San Juan County, New Mexico.

The Bureau of Land Management requested this well be placed at this location in order not to interfere with their surface gravel mining leases. An orthodox location would require strip mining 8' to 10' of gravel off the location prior to spudding the well.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office.

Plats showing the proposed well location and the terrain in Section 17, along with an ownership plat, are attached.

Sincerely yours,

G. W. Brink
Project Drilling Engineer
