Farmington, NM 87499-4289

Gentlemen:

Communitization Agreement NM015P35-86C-502 was approved March 13, 1986, effective September 1, 1985. The agreement communitized 120.00 acres of land in Federal lease NM NM-019405 and 40.00 acres of Fee land, described as the SE $\frac{1}{4}$ section 17, T. 29 N., R. 11 W., NMPM, San Juan County, New Mexico as to natural gas and associated liquid hydrocarbons produced from the Pictured Cliffs Formation. The term of the agreement was for two years and so long thereafter as communitized substances are or can be produced from the communitized area in paying quantities.

Our records show that the well dedicated to the above described communitized spacing unit is the No. 3 Bloomfield located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ section 17, T. 29 N., R. 11 W. The well was plugged back and recompleted in the Fruitland Coal formation February 1, 1990. Therefore, Communitization Agreement NM015P35-86C-502 is terminated as of March 1, 1990.

If you have any questions, please contact Janice Easley at the above address or telephone (505) 599-8963.

Sincerely,

/s/ Duane Spencer
