Bloomfield Chacra

Gentlemen:

We hereby request a nonstandard location for a well to be drilled 590 feet from the South line and 1870 feet from the West line of Section 22, T29N, R11W, San Juan County, due to topographical

We have located the well on a 100 foot extension to an existing site on which the Kimbell-Cook #1 and Kimbell-Cook #2 wells are located in order to keep all three wells in as small total area as possible. This location is within the corporate limits of the City of Bloomfield therefore the well must be more than 300 feet from any residential site. For that reason, it was set in the southwest portion of the new tract.

Copies of this application are being sent by certified mail to all offset operators of wells which are completed in the Bloomfield Chacra formation. The names and addresses of all these operators are shown on an attached sheet.

Also enclosed are the well location plat and an offset ownership plat.

If further information is needed, please contact us.

Yours very truly,

*Ed Hartman*
