17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The subject well was permitted to drill several months ago. Because it is located on the same location as an existing Pictured Cliffs producer (GCU #331) it was determined that a recompletion would be more economically favorable than drilling a new well. For this reason, the permit for the subject well should be cancelled.
