17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Blackwood & Nichols Co., Ltd. drilled the NEBU Well No. 402 during 1988 with an Application for Permit to Drill approved by the Bureau of Land Management on April 21, 1988. The referenced APD also included a request for pipeline right-of-way to move the natural gas from the well's location to the existing Northwest Pipeline gathering system. Attached is a pipeline survey prepared by Daggett Surveying, Inc. Blackwood & Nichols anticipates this gas pipeline will be constructed during the next 90 days.
