Administrative Order NSL-2634

Dear Mr. Clark:

Reference is made to your application of January 30, 1989 for a non-standard coal gas well location for your Northeast Blanco Unit Well No. 424 to be located 2100 feet from the North line and 1330 feet from the West line (Unit F) of Section 4, Township 30 North, Range 7 West, NMPM, Basin Fruitland Coal (Gas) Pool, San Juan County, New Mexico. Lots 7 and 8, the N/2 NW/4 and the SW/4 of said Section 4 shall be dedicated to the well forming a standard 319.38-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

William J. LeMay

Re: Unorthodox Gas Well Location
Northeast Blanco Unit No. 424
2100' FNL - 1330' FWL, Sec. 4, T30N, R7W
San Juan Co., New Mexico

Dear Mr. LeMay;

Blackwood & Nichols Co., Ltd. requests administrative approval of an exception to the location requirements of Rule 7, R-8768 for the subject well, located in the Basin Fruitland Coal Pool.

This request is for exception due to topography. A Vicinity Map and C-102 are attached for your reference. As evidenced by the Vicinity Map, all of the standard footage window in the Northeast quarter is covered by Navajo Reservoir. This standard location in the Northwest quarter was staked as the best alternative. A non standard footage location by the NEBU # 44 (NE-4-30-7) was not considered acceptable due to it's proximity to the shoreline.

The west half of Section 30 will be dedicated to this well. All offset proration units are operated by Blackwood and Nichols Co., Ltd.

Your prompt consideration of this request is appreciated.

Sincerely,

William F. Clark
Operations Manager
