Administrative Order NSL-2685

Dear Mr. Clark:

Reference is made to your application of April 24, 1989 for a non-standard coal gas well location for your Northeast Blanco Unit Well No. 469 to be located 1315 feet from the North line and 645 feet from the East line (Unit H) of Section 13, Township 30 North, Range 8 West, NMPM, Basin Fruitland Coal (Gas) Pool, San Juan County, New Mexico. The E/2 equivalent of said Section 13 shall be dedicated to the well forming a standard 320-acre, more or less, gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

  
William J. LeMay

Re: Unorthodox Gas Well Location  
Northeast Blanco Unit No. 469  
1315'FNL - 645'FEL, Sec. 13, T30N, R8W  
San Juan Co., New Mexico

Dear Mr. LeMay;

Blackwood & Nichols Co., Ltd. requests administrative approval of an exception to the footage requirements of Rule 7, R-8768 for the subject well, located in the Basin Fruitland Coal Pool.

This request is for exception due to topography. A Vicinity Map and C-102 are attached for your reference. The location cannot be moved any further to the west due to its proximity to the bluff overlooking the San Juan River. No legal location is available to the north because of the proximity of New Mexico Highway 511 and water and sewer lines for the Navajo Marina.

The east half of Section 13, T30N, R8W, will be dedicated to this well. All offset proration units are operated by Blackwood and Nichols Co., Ltd.

Your prompt consideration of this request is appreciated.

Sincerely,

*William F. Clark*
