Blackwood & Nichols Co. P.O. Box 1237 Durango, CO 81302

Attention: William F. Clark,

Operations Manager

Administrative Order NSL-2632

Dear Mr. Clark:

Reference is made to your application of January 30, 1989 for a non-standard coal gas well location for your Northeast Blanco Unit Well No. 451 to be located 210 feet from the North line and 1900 feet from the East line (Unit B) of Section 6, Township 31 North, Range 7 West, NMPM, Basin Fruitland Coal (Gas) Pool, San Juan County, New Mexico. The E/2 equivalent of said Section 6 shall be dedicated to the well forming a standard 320-acre, more or less, gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

William J. LeMay

Director

Mr. William LeMay New Mexico Oil Conservation Division P.O.Box 2088 Santa Fe, New Mexico 87501

Re:Unorthodox Gas Well Location Northeast Blanco Unit No. 451 210'FNL - 1900'FEL, Sec.6, T30N, R7W San Juan Co., New Mexico

Dear Mr. LeMay;

Blackwood & Nichols Co., Ltd. requests administrative approval of an exception to the footage requirements of Rule 7 , R -8768 for the subject well, located in the Basin Fruitland Coal Pool.

This request is for exception due to topography. A Vicinity Map and C-102 are attached for your reference. As evidenced by the Vicinity Map there is no possible way to position a location at a standard footage from the north line because of the steep canyon wall of the Pine River. This location was staked to take advantage of the existing disturbed area adjacent to the existing NEBU # 37.

The east half of Section 6 will be dedicated to this well. All offset proration units are operated by Blackwood and Nichols Co., Ltd.

Your prompt consideration of this request is appreciated.

Sincerely,

William F. Clark Operations Manager Blackwood & Nichols

Co., Ltd.
