12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Per our sundry dated 7-20-90, operations were suspended at the subject drillsite in order to satisfy the City of Farmington's permitting requirements for wells located within city limits. Although the permit was approved in late June, drilling has since been delayed by the inavailability of drilling contractors. BHP is currently negotiating a contract with a drilling company and anticipates resuming the subject drilling operation on September 4, 1990.
