Conditions of approval, if any:

Addendum to Sundry Notice from Richardson Operating Company, related to construction of gathering line pertaining to the ROPCO Federal 12-1 PC well, located in the NW/4SE/4-Section 12-T29N-R13W, San Juan County, New Mexico.

Richardson Operating Company requests approval to construct a gathering line, as shown on the attached map, to transport gas from its ROPCO Federal 12-1 PC well to its ROPCO Fee 7-1 FC well pad for compression and sales.

The ROPCO Federal 12-1 PC well is located in close proximity to residential residences. In an effort to reduce noise, Richardson Operating Company will produce, separate and measure gas at its ROPCO Federal 12-1 well, then transport the gas through a gathering line to its ROPCO Fee 7-1 FC well pad in the NW/4SW/4-Section 7-T29N-R12W. The gas will then be compressed and run through a master meter into the El Paso gas line.

1. The outside diameter of all pipe to be used is 2 inch.
2. Anticipated maximum test pressure is 500 psi.
3. Anticipated operating pressure is 100 psi.
4. The type of pipe is steel.
5. The method of coupling will be welded.
6. A portion of the total trench (2500') will be shared with ROPCO 12-2 (A)PC, (B)FC gas line and water line.
7. There are no other objects (power line, communication cables etc.) to be associated in this trench other than cathodic protection sacrificial anodes.
8. The total length of the pipeline will be 4500 feet. There will be no lines located on BLM lands.
9. The depth of the trench will be approximately 5 feet. The width of the trench will not exceed 3 feet.
10. The depth of cover of the pipeline will be 4 feet.
11. The method of entrenchment will be with trencher.
12. The construction width needed will be 15 feet.
13. No surface disturbing activities, temporary or permanent, will be on BLM lands.
14. There will be no other facilities including dehydration facilities, located on BLM lands.
