Re: Troxel #1 well, P-15-29N-11W

Dear Mrs. Usher:

On September 23, 1999, a braden head test on the referenced well revealed communication of Farmington oil to the surface. I contacted Mr. Bob Fielder of Property Management Company and he came into this office and discussed the matter. On October 4, 1999, he submitted a plan to repair the well. To date the well has not been repaired.

You are hereby directed to immediately enter the well and commence repairs according to the approved Sundry Notice dated October 15, 1999.

Notify Charlie Perrin of this office 24 hours prior to commencing work.

If you have any questions, please notify me or Charlie Perrin.

Yours truly,

Ernie Busch
District Geologist/Deputy O&G Inspector

EB/mk
