

NEW MEXICO  
OIL CONSERVATION COMMISSION  
AZTEC, NEW MEXICO

June 22, 1956

Mr. Warren Mankin  
Oil Conservation Commission  
Santa Fe, New Mexico

Re: NSL-25, April 6, 1956

Dear Warren:

The plat submitted with the application shows the location to be 1130 feet from the north line. The letter erroneously shows 1160 feet.

The well is now on the scout letter as the #12-15 Rosa Unit instead of the #11-15. Tom Dugan verified the location to be as the plat indicates.

Do you wish to have a corrective order issued. Please return the enclosed application when you have finished.

Yours very truly

A. R. Kendrick  
Engineer, District #3
