Attention: Albert Libersat

Administrative Order NSL-2988

Dear Mr. Libersat:

Reference is made to your application dated January 16, 1991, for a non-standard Basin-Fruitland coal gas well location for your existing Rosa Unit Well No. 83 which was drilled in 1981 and completed in the Basin-Dakota Pool at a standard gas well location 790 feet from the North line and 1730 feet from the West line (Unit C) of Section 15, Township 31 North, Range 4 West, NMPM, Rio Arriba County, New Mexico.

It is my understanding that the Dakota zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, is unorthodox. Further, the W/2 of said Section 15 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of said Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

William J. LeMay
Director

Re: Application for an Unorthodox Location
Mitchell Energy Corporation
Rosa Unit No. 83
790' FNL & 1730' FWL
Sec. 15-T31N-R4W
Basin Fruitland Coal Gas Pool
Rio Arriba County, New Mexico

Gentlemen:

Mitchell Energy Corporation respectfully requests your approval of an Application for Unorthodox Location for the Rosa Unit No. 83 well located 790' FNL & 1730' FWL of Sec. 15-T31N-R4W, Basin Fruitland Coal Gas Pool, Rio Arriba County, New Mexico.

The subject well was drilled in May, 1981 to test the Dakota Formation and subsequently temporarily abandoned. Current plans call for a recompletion attempt into the Basin Fruitland Coal Formation. This well is located outside the acreage dedicated to the Basin Fruitland Coal Formation therefore approval to Unorthodox Location is required. Since this well will be a recompletion, no new surface disturbance will be required, thereby minimizing damage to the environment and wildlife habitat.

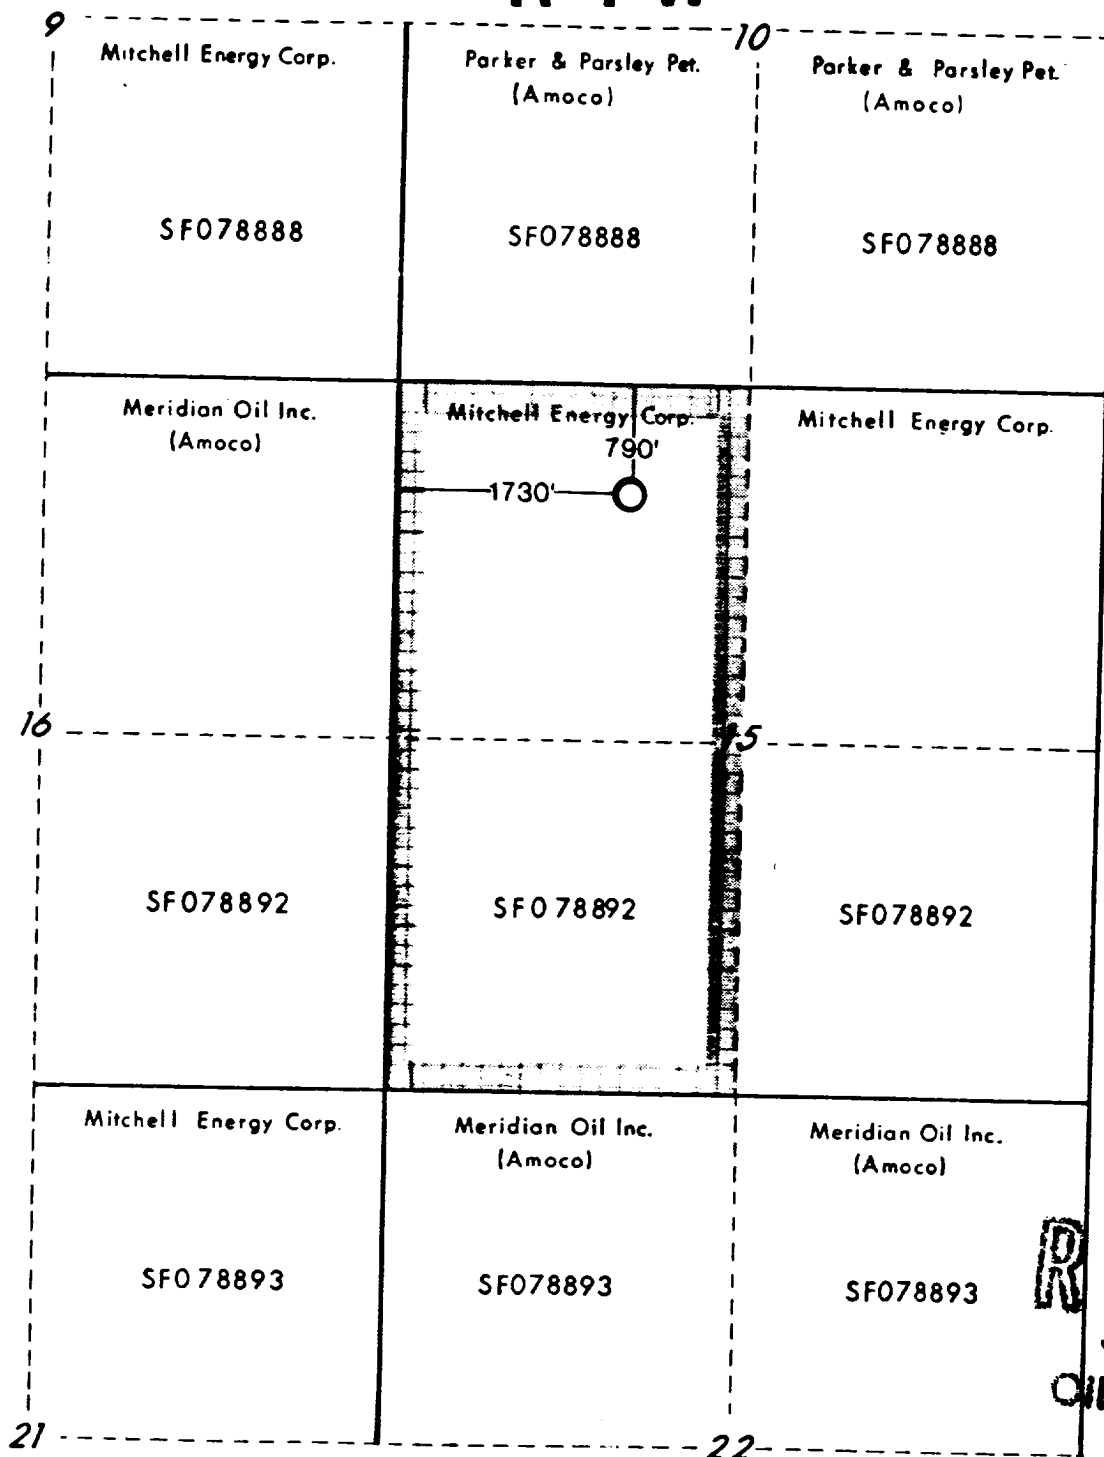

Attached are exhibits showing the well location, plats of the surrounding area and the copy of the approved Sundry Notice. Also attached are waivers obtained from all offset operator and/or lease owners.
