Blanco Mesa Verde

RECEIVED
MAR 13 1996
OIL CON. DIV.
DIST. 3

Dear Mr. LeMay,

This is a request on behalf of Williams Production Company for administrative approval for a non-standard gas location in the Blanco Mesa Verde pool for the referenced well.

The well is staked at the top of a relatively level ridge which slopes sharply to the north into Navajo Lake. The proposed spacing unit is the north half of Section 12, T31N, R6W, which is 271.17 acres due to a variation in the legal subdivision of the U.S. Public Land Surveys.

At the request of the Bureau of Land Management, the surface owner, this well has been located to utilize part of an existing access road. The proposed location also avoids archaeological sites and artifacts on the ridge to the north and east of the location.

As the Unit Operator of the Rosa Unit, Williams Production is the only offset operator. Attached is a plat indicating the well location and proposed spacing unit and a topographical map of the area.

Thank you for your consideration and approval of this application. If you have any questions please do not hesitate to call upon me.

Sincerely,

Paul C. Thompson, P.E.
President, Walsh Engineering
