• Environmental Impact Assessment (EIA) is a process that identifies, predicts, and evaluates the potential environmental impacts of a proposed project or development.

1. Identify the project and its potential impacts.

2. Assess the baseline environmental conditions.

3. Identify the potential impacts of the project.

4. Develop mitigation measures to avoid, minimize, or compensate for the impacts.

5. Prepare an EIA report and submit it to the relevant authorities for review and approval.
