Re: Smith #1 Well
Locke-Taylor Drilling Co
operator
Fulcher-Kutz PG Pool
Sec 27-30N-12W

Gentlemen:

In compliance with your letter dated March 30, 1955, and Memorandum and Order #R-565 relative to filing applications for approval of non-standard gas proration units in the Northwestern Gas Pools, the following information is submitted:

1. The Smith #1 Well of the Locke-Taylor Drilling Company is located 2300 feet from the South line and 720 feet from the West line of Section 27, Township 30 North, Range 12 West, N.M.P.M., in the Fulcher-Kutz Pictured Cliffs Pool, Unit "L".

2. The non-standard unit comprises 109.0 acres lying wholly within a single governmental section. This well was completed on June 24, 1947, and connected to the Southern Union Gas Company line in January, 1948. The present-day spacing regulations were not in effect at that time. The unit comprised the Lawrence G. Smith ranch or farm.

3. The entire unit may be reasonably presumed to be productive of gas.

4. A copy of this letter, advising of the intent to form this non-standard unit, is being sent to all offset operators by registered mail.

5. Plats showing location of the well and offset operators are attached.

The writer respectfully requests consideration of this application for approval under the provisions of Order #R-565, Rule 6(b)

Re: Smith #1 Well
Locke-Taylor Unit
Operator
Refiner-Owner
Sec 27-304-123

Gentlemen:

In compliance with your letter dated March 30, 1955, and Memorandum and Order #8-565 relative to filing applications for approval of non-standard gas production units in the Northwestern Gas Pools, the following information is submitted:

1. The Smith #1 Well of the Locke-Taylor Unit, located 2300 feet from the south line and 700 feet from the west line of Section 27, Township 30 North, Range 12 West, N.M.P., in the Richer-Kite Pooled Girls Pool, Unit #1.
 2. The non-standard unit comprises 107.0 acres lying wholly within a single governmental section. This well was completed on June 24, 1947, and connected to the Southern Union Gas Company line in January, 1948. The present-day spacing regulations were not in effect at that time. The unit comprised the Lawrence C. Smith ranch or farm.
 3. The entire unit may be reasonably presumed to be non-ductive of gas.
 4. A copy of this letter, advising of the intent to form this non-standard unit, is being sent to all offset operators by registered mail.
 5. Plans showing location of the well and offset operators are attached.
- The writer respectfully requests consideration of this application for approval under the provisions of Order #8-565, Rule 6(b).

C revised, and Rule 1 of Order #R-128-C, of the subject non-standard gas proration unit.

Very truly yours,

Lloyd D. Locke

INSTRUCTIONS

1. Is this gas well a dual completion? Yes _____ No _____.
2. If the answer to Question 1 is Yes, are there any other
dually completed wells within the dedicated acreage?
Yes _____ No _____.

A separate plat must be filed for each gas well, outlining the area dedicated to such well and showing the location of all other wells (oil and gas) within the outlined area.

Mail in duplicate to the district office for the district in which the well is located.
