12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Denny Foust of the NMOCD has asked us whether we plan to convert the well to injection or to P&A. Although it is approved as a potential injection well by the State, Merrion no longer has a need for the well as an injector. However, we feel that other operators in the area may be able to use the well. Therefore, we are now trying to sell the well as a possible injector. If we cannot find a purchaser by year end, we will plug the well early next year.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
