Well No. 2 is located 300 ft. from N line and 300 ft. from E line of sec. 30
1/4 Sec. and Sec. No. 20 Twp. 1-30E Range 1-30E Meridian 1-30E
Field Delta Pk County or Subdivision San Juan State or Territory New Mexico

The elevation of the derrick floor above sea level is 5000 ft. S. L.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to deepen with rotary tools from present T.D. of 4504' to the base of the Point Lookout Sand, shoot with nitro for gas completion in both Cliffhouse and Point Lookout Sands. If after shot and cleanup, if found necessary, 5 1/2" liner with perforations opposite the Cliffhouse and Point Lookout formations will be set from 4399' to new T.D.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
