A second approval is requested to retain this well in its present temporarily abandoned status. It is being held pending an evaluation to determine whether or not it should be reworked either in the Mesa Verde or Pictured Cliffs, or whether it should be plugged and abandoned. The well is located in a marginal Mesa Verde producing area which makes an economic justification difficult at the present time. Periodic visits to the wellsite to check the bradenhead and surface equipment will be made until either the rework is done or it is permanently plugged and abandoned.
