

NEW MEXICO  
OIL CONSERVATION COMMISSION  
AZTEC, NEW MEXICO

August 4, 1955

Tennessee Gas Transmission Co.  
Box 957  
Denver, Colorado

Att: Mr. Pat Lay

Dear Sir:

We received notice of intention to drill on your #1 Unit 5 well in the NE 16-30N-11W. This is the well about which I talked to you on the telephone a few days ago.

We cannot give your notice of intention to drill final approval until we have received surveyor's plat showing the exact location of the well and Gas Well Plat showing dedicated acreage. I also believe that you should indicate under "Additional Information" what your plans are for artificial stimulation.

We are returning the notice of intention to drill for the above corrections.

Yours very truly

Emery C. Arnold  
Supervisor, District #3
