J. W. Aidlin #1 Farmington, New Mexico March 23, 1960

Well No. 4 is located 530 ft. from S line and 365 ft. from E line of sec. 10

3 1/4 3 1/4 Section 10 T-30 16 N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)

Horrocks Well San Juan New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 5325 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Spudded 12-1/4" hole on March 8, 1960 and drilled to 95'. 8-5/8" casing was set at 95' with 80 sacks of cement containing 2% calcium chloride. Circulated 15 sacks of cement. After waiting on cement, tested casing and water shut off with 500 psi for 15 minutes which held with no indication of pressure drop. Reduced hole to 7-7/8" at 95' and resumed drilling operations.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
