*Gentlemen:*

*On March 5, 1958 the Oil Conservation Commission approved a one-well plugging bond for a Pictured Cliffs gas well in the NE $\frac{1}{4}$ SW $\frac{1}{4}$  Section 7-30N-11W. John J. Moya was the principal on the bond.*

*Since that time the well has ceased producing. Our records indicate that the well has not had any production reported since December, 1957. On April 27, 1961 a letter was written to Mr. Moya informing him that the well would either have to have remedial work done so that it could be put back on production or that it would have to be plugged and abandoned. This letter has never been answered.*

*We are, therefore, instructing that your company take action within the next 60 days to properly plug and abandon this well. Please contact this office for plugging instructions prior to initiating the work.*

*Yours very truly*
