

New Mexico
Oil Conservation Commisison
AZTEC, NEW MEXICO

September 23, 1953

Mr. W. P. Carr
6700 Forest Lane
Dallas, Texas

Dear Mr. Carr:

On September 9 we approved a Notice of Intention to Drill on the #1 Gerber Pooled Unit, 1137' from the North line and 753' from the East line, Section 9-30N-11W.

Since that time we have been notified by your agent in Aztec, Mr. Short, that it was necessary to move this location due to swampy conditions of the location and he has re-submitted Notice of Intention to Drill on the #1 Thomas Pooled Unit, 1190' from the North line and 1141' from the East line, Section 9-30N-11W.

This letter is to advise you that approval on the #1 Gerber has been cancelled.

Yours very truly,

Erery C. Arnold
Oil & Gas Inspector
District #3
