Re: Our Well Blanco 30-12, 4-10
Section 10, T30N, R12W
San Juan County, New Mexico
(Produces from Fruitland)

Gentlemen:

We have made several attempts to secure a deliverability test on the captioned well during 1963 but due to low well productivity and high line pressures have been unable to get a satisfactory test.

Inasmuch as this is a very poor well, it is requested that you waive the 1963 deliverability test requirement and reclassify the well as marginal.

Very truly yours,
