Mr. Emery C. Arnold  
Oil and Gas Inspector  
Oil Conservation Commission  
Post Office Box 697  
Aztec, New Mexico

Dear Sir:

Enclosed are seven copies of the Notice of Intention to Change Plans on our Yager Pool Unit No. 2 in NW/4 Sec. 6, T-30N, R-11W, N. M. P. M., San Juan County, New Mexico.

This well has been drilled through the Pictured Cliffs formation and found to be non-productive at that depth.

It is our desire to salvage the hole and casing in place by drilling the well through the Mesaverde formation, even though the location is in the NW/4 and does not conform with the Blanco spacing of a NE/4 or SW/4 location.

El Paso Natural Gas Company has operating rights on all of Sec. 6, T-30N, R-11W, except the SE/4 of SE/4. In surrounding sections, El Paso has operating rights as follows: Sec. 5, T-30N, R-11W - 160 acres in W/2; Sec. 7, T-30N, R-11W - 40 acres in N/2; Sec. 1, T-30N, R-12W - 40 acres in E/2; Sec. 31, T-31N, R-11W - 320 acres in S/2; Sec. 36, T-31N, R-12W - 120 acres in S/2.

If there is any further information that you require, please call on me.

Yours very truly,

  
E. J. Coel  
Petroleum Engineer
