Amoco Production Company intends to modify the subject well as follows:

A blind plate will be installed at the surface to prevent gas sales. All production equipment associated with the Blanco Mesaverde will be dismantled. Amoco plans to use the Yager LS #2 as a pressure monitor well for the Blanco Mesaverde. From this point forward, the Yeager Com #1 will be dually produced as a Basin Dakota and a Blanco Mesaverde. If you have any questions, contact Dallas Kalahar at (303) 830-5129.
