Dear Mr. Rodgers:

The El Paso Nat. Gas #2, SJU 32-9, A-5-31N-9W was recently shut in by this office for over-production. A new deliverability test has been submitted on this well and a supplement issued.

It is therefore now within the over-production limit as set out by Order R-128-D. This letter will constitute your authority to turn this well back on production.

Yours very truly
