March 27, 1975

United States Geological Survey
P.O. Box 959
Farmington, New Mexico 87401

Dear Sir:

Southern Union Production Company proposes to drill its Hunsaker No. **4 1A** Mesaverde well located 1460 feet from the North line and 960 feet from the West line of Section 26, Township 31 North, Range 9 West, N.M.P.M., San Juan County, New Mexico.

Attached are maps showing the following data:

1. Existing roads.
2. Planned access roads.
3. Location of existing wells.
4. Lateral roads to well locations.
5. The location of tank batteries and flow lines are not presently known. After the well has been drilled and the location has been cleaned this equipment will then be installed on the existing location. It is requested that a subsequent map be submitted after determining the exact location.
6. Drilling and completion water will be obtained from Pump Canyon Wash and San Juan River.
7. Waste will be disposed of by being placed in the reserve pit and buried. Some will be burned in burn pit which will be covered after the well has been completed.
8. There will be no camp at or near the proposed well site.
9. There will be no airstrip.
10. A map is attached showing the location of the rig, mud tanks, reserve pit, burn pit, pipe racks, etc. The access road and location will be compacted.
11. After the well is completed the location will be cleaned and bladed. The reserve pit will be fenced until it has dried and then it will be filled and restored to its natural state. The access road will be left as is for well maintenance.
12. The location is on the edge of Pump Canyon Wash. The vegetation is predominately sparse range grass.

Yours very truly,

SOUTHERN UNION PRODUCTION COMPANY

Jerry L. Lee
Area Engineer
