RE: Application for Multiple Completion
Mesa Verde - Fruitland Zones
Tenneco's Florance Wells ~~3~~ 39A
San Juan County, New Mexico

Dear Sir:

In accordance with Rule 112-A, we submit herewith in duplicate our Applications for Multiple Completion (Form C-107) of the above referenced wells. As indicated on the applications, we tested the Fruitland in each of the wells and the zone is non-commercial. However, because of problems encountered during the dual completion effort, we elected to leave the Fruitland shut-in rather than cement squeeze those perforations thus effecting a single completion of the Mesa Verde.

Because of the fact the Fruitland zone is non-commercial, we respectfully request administrative approval of our applications. If you need any further data to substantiate the facts presented in these applications, please contact the undersigned in the Denver office.

Yours very truly,

TENNECO OIL COMPANY

D. D. Myers
Division Production Manager

*Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard perforation unit in one or more of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.

RE: Multiple Mesa Verde-Fruitland
Completion - Tenneco's
Florance Well No. 39A,
San Juan County, New Mexico

Dear Sir:

In accordance with New Mexico Oil Conservation Commission procedures, this is to advise you of our Application for Multiple Completion (copy attached) of our Florance Well No. 39A from the Fruitland and Mesa Verde zones. In regard to this application, we should point out that the Fruitland zone was tested but is non-commercial and we have no intention of producing this zone. Because of problems encountered as a result of the dual completion effort, we elected to leave the Fruitland zone shut-in rather than cement squeeze those perforations.

If you have no objection to our application, please indicate your approval of same by signing and sending one copy of this letter to the Commission's Office in Aztec, New Mexico, and returning one copy to this office.

Yours very truly
