Re: Non-Standard Location
Basin Dakota Gas Field
San Juan County, New Mexico

Gentlemen:

Each of you has a direct or diagonal offset to Manana Gas, Inc.'s location (790' FSL and 1245' FEL) for a 6600 ft Dakota test in Section 14, T 30N, R 12W, San Juan County, New Mexico. The legal limit from the east line is 790-1190' or 1450-1850'. To have the location 1190' FEL would place the drillsite 20 feet from a permanent irrigation ditch (see enclosed survey plat).

New Mexico Oil Conservation Commission Rule 104, paragraph D, subparagraph II-C states that if the applicant presents written consent in the form of waivers from all offset operators, the Secretary-Director of the Commission may grant administrative approval for an unorthodox location.

Manana Gas, Inc. would greatly appreciate your granting a waiver for this location.

Yours very truly,
MANANA GAS, INC.

Betty M. Hartman
